wanzl connect™ – Gate Module

Track Wanzl Gate performance in your stores to enhance use of your Asset Protection investment.

- Cloud-based system to connect and monitor Wanzl devices and provide transparency of store processes
- Add-on for Wanzl entrance and exit motorized gates
- Know when a gate is offline with gate Live Monitoring feature
- Tracks gate opening and walk-out events to provide usage insights for Wanzl entrance and exit gates
- Identify for stores with high number of panic alarms
- Compare Gate performance on individual gate level or store level with Gate Statistics
- Directly access or export data through your wanzl connect dashboard via web-application
- For data reporting network connection to gate is required
- Privacy Protection: No customer data is collected
