wanzl

As varied as your product range: wiretech 100™ provides diverse shelving options.

Wanzl wiretech 100™

Improving your customer's shopping experience with a new modern look!

- Creates 12% to 14% additional merchandising space in the same footprint when compared to the competition.
- Our durable powder coat finish combined with our wire concept creates a longer shelf life versus the competition.
- Minimal components are required with our wiretech 100™ system which reduced fewer parts stocked in your warehouse. Reduces installation process that help lowers installation time and cost.
- Reduction of labor needed for fixture maintenance/hygiene. The bottom base shelf only requires cleaning when using our unique wire shelf concept. Reduces labor hours per section by 50%.
- When there are gaps in the product range, wiretech 100™ disappears and draws the customer's eye to items on the shelf below. The product-oriented setting of heights, distances, and depths makes product stand out.
- Includes a variety of sizes and fixtures that can meet each stores needs. Combined shapes and sizes for the perfect fit.
